

LED Pilot Lamps

LED Pilot Lamps are a compact, 19mm LED light featuring new generation surface mount LEDs with two stage lensing providing excellent illumination and extremely wide viewing angles. The LED circuitry is epoxy sealed protecting it from moisture and dust ingress and ensuring hassle free operation in almost any application.

Dual voltage
12V to 24V
operation

Wide viewing
angles

Suitable for a
wide variety of
applications

Water
resistant

Extremely
bright.
Ideal for
daytime use

Epoxy
sealed LED
circuitry

LED Pilot Lamp Specifications

Voltage :	12-24V
Current Draw :	0.1A @ 12V
Housing Material :	ABS Plastic
Cutout Hole Size :	16mm
<i>Supplied with 2x terminals, 2x insulators</i>
