

Emergency Stop Switches

Total Source Emergency Stop switches are designed for use in transport and industrial applications where a high quality emergency shut down switch is required.

With a range of configurations possible including metal or plastic enclosures and multiple actuator types, the Total Source series Emergency Stop switches can be used in a number of different applications.

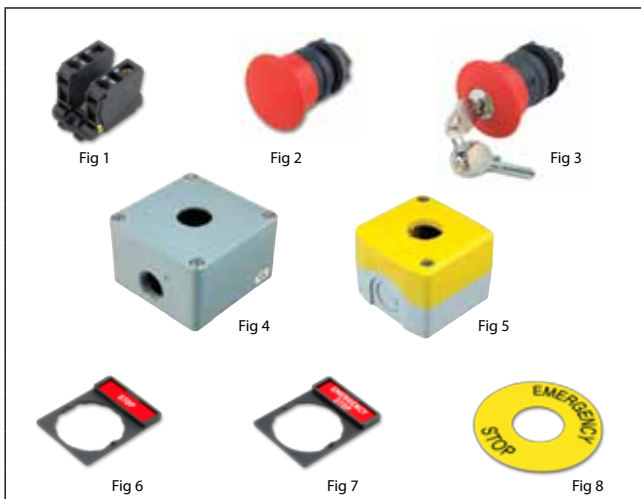

- All kits supplied in component form.

Kits

Part No.	Enclosure Type	Button Type	Legend	Figure
TMS01	Plastic	Momentary	Rectangle	1
TMS02	Plastic	Latching	Rectangle	1
TMS03	Plastic	Push/Pull	Rectangle	1
TMS04	Metal	Momentary	Round	2
TMS05	Metal	Latching	Round	2
TMS06	Metal	Push/Pull	Round	2
TMS08	Plastic	Lockable	Rectangle	1

- All Kits are supplied with a dual contact block which have 1x N/O & N/C.
- All Legends supplied with kits are "Emergency Stop". Legends with only "Stop" need to be purchased separately.

Components

Part No.	Description	Figure
